Experience

MERN Stack Trainee
07 Services

Jalandhar, India
August 2022 – April 2023

1. RIET | Tech Stack: React JS, Node JS, MongoDB, Express, JWT, Material UI | [Demo Link](#)

- Built a customized clone of my college website in MERN Stack.
- This is a single page web-application allowing users to apply online in the relevant course.
- Admins should be able to manage all the applications.
- Admin can add new job posting and job seekers who are eligible can apply for the respective job.

2. WeatherToday | Tech Stack: JavaScript, Handlebars, Node JS | [Demo Link](#)

- A Weather API based web-application which give us real time weather information with additional functionalities like 'Auto-detect your current location'.
- Users can manually search for weather information by city, state and country name.

Summer Trainee
07 Services

Jalandhar, India
July 2022 - August 2022

1. FruitCart | Tech Stack: MySQL, PHP, JavaScript, HTML, CSS, Bootstrap, XAMPP

- Created DBMS based E-Commerce website.
- An end-to-end database focused site having user-panel for user registration, view cart, buy items and track order status.
- Admin panel for adding and managing products on the site. Also updating the order status.
